

C2 "MY PET REINDEER" KIT

1. Print out antlers and nose on card stock using a color printer.
2. Cut out antlers and red nose. Punch holes in base of antler harness.
3. String soft yarn through holes, attach to pet's head. **WARNING:** Do not substitute yarn with other attachment methods like a hot glue gun or staples. You're on your own for getting that red nose attached.
4. Grab your camera to capture the delight of the family as your pet spreads holiday cheer by immediately attempting to dislodge antlers or freezing comedically for photos.
5. Post to Facebook or YouTube to further spread holiday cheer. Expect calls/letters from PETA and your local humane society.
6. Think fondly of C2 for facilitating holiday memories that will last a lifetime.

Salutations of the season from our C2 family to yours!
